

## **Bright Tribe and ALAT response for parents, staff and stakeholders – 18.07.18**

Please find below a response from the Bright Tribe Board following recent media coverage in relation to the future of Bright Tribe. Both Bright Tribe and ALAT Trusts will endeavour to keep parents, staff and other stakeholders informed of any updated news but we would like to re-assure all parties that it is business as usual. The top priority remains children's education and maintaining the significant improvements seen in our academies.

We would like to confirm that the future strategic direction of the Trust is a matter for consideration and determination by trustees and members. Recently appointed trustees for each Trust, with whom all future strategic decisions lie, have not yet met as a board and there has been no discussion concerning the future strategic direction of the Trust. Any comments concerning potential re-brokerage are therefore no more than speculation.
